Update on the 2009 IPEV Guidelines

July 2009

In May 2009, the IPEV Board called for comments on the exposure draft of the 2009 edition of the IPEV Guidelines. The Board would like to thank everyone who has contributed during the consultation period and highly values all responses.

The new Guidelines, applying to reporting periods post 1 July 2009, will be published in early September at the latest, to ensure they are available and ready to use for third quarter reporting.
