

IPEV Board News October 2012

Consultation Document: Valuation Guidelines Edition 2012

In June 2012, the IPEV Board decided to update the Valuation Guidelines to take into account the FASB/IASB congruence on Fair Value.

Following a first consultation with the endorsing associations that took place last September, the IPEV Board will post a consultation document on its website early November 2012. Stakeholders' comments will be reviewed by the Board before the release of the new edition of the Valuation Guidelines foreseen in early December 2012.
